MEMORANDUM FOR: Chief, Ballistic Missiles Systems, OSI

ATTENTION: [REDACTED]

THROUGH: Chief, Reconnaissance Group
DD/I Collection Guidance Staff

25X1A

SUBJECT: Pre-release of Parade Missiles

REFERENCE: a. CIA Requirement C-SI5-82,589
b. NPIC Project 11339-5

1. The Soviets have exhibited three new missiles in the Moscow Parade. Photography of these missiles was of a quality sufficient to develop dimensions of these missiles and their components. The dimensions were used to compile the accompanying line drawings.

2. Two models of each missile were also in the parade. Minor differences were apparent between the models of the smaller missile. These are shown on the drawing. No apparent differences were observed in the larger missile.

3. The dimensional data contained in this pre-release are subject to further refinements. The line drawings as they now appear are not complete and in some cases, the dimensional data shown is not drawn to scale. Work is now in process to refine the dimensional data and line drawings. (If any discrepancies are noted or if any specific dimensional information is needed, please contact the project coordinator.)

[REDACTED]
Colonel, USA

25X1A

Assistant for Photographic Analysis, NPIC

Enclosure:

line drawings, dimensional data, graphics

Distribution:

1&2-BMS/OSI (w/1 encl)	✓ 8-CSD/NPIC (w/1 encl)
